

HOANG QUANG QUYEN

FRESHER SOFTWARE DEVELOPER

Ho Chi Minh City, Vietnam | 0373 291 626 | hqq.7.12.03@gmail.com

GitHub: <https://github.com/quyenhoang0712>

PROFESSIONAL SUMMARY

Software Developer with frontend experience at Patecan and hands-on expertise in React.js, Node.js, Express.js, and MongoDB. Developed and deployed 138 Love Yourself, a full-stack web platform featuring authentication, RESTful APIs, and user analytics. Seeking a Fresher Software Developer position to contribute to real-world projects.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), HTML5, CSS3, Python (Basic)
- Frontend:** React.js, Vite, Responsive Web Design
- Backend:** Node.js, Express.js, RESTful APIs
- Database:** MongoDB, MongoDB Atlas
- Tools:** Git, GitHub, Visual Studio Code
- Concepts:** Component-Based Development, CRUD, HTTP, API Integration

WORK EXPERIENCE

Patecan — Frontend Developer Intern

04/2025 – 06/2025

- Developed new frontend features using React.js by integrating RESTful APIs provided by the backend team.
- Maintained and enhanced existing user interfaces based on project requirements.
- Handled API responses and rendered dynamic data within React components.
- Updated reusable UI components to support new application functionality.

PROJECTS

1. 138 Love Yourself — Interactive Web Platform (2026)

Live Website: <https://138loveyourself.vn>

GitHub: <https://github.com/quyenhoang0712/138Loveyourself>

Role: Full-stack Developer

Tech Stack: React.js, Vite, Node.js, Express.js, MongoDB, Mongoose, Vercel

Description: A deployed full-stack interactive web platform featuring personalized experiences, community interactions, user authentication, engagement analytics, and administrative tools.

Key Contributions:

- Developed a full-stack interactive web application with React.js, Express.js, and MongoDB.
- Implemented user authentication, session management, email verification, and OAuth integration.
- Built RESTful APIs for user profiles, community content, and user interactions.
- Developed analytics endpoints to track user sessions, activities, and engagement.
- Implemented administrative access controls and API rate limiting.
- Configured Vercel deployment and connected the application to a custom domain.

2. Online Tutoring Center — Education Management Platform (2026)

GitHub: <https://github.com/quyenhoang0712/finalproject>

Description: A MERN-stack education management application supporting teaching operations, student administration, scheduling, and learning activities.

Role: Full-stack Developer

Tech Stack: React.js, Vite, Node.js, Express.js, MongoDB, Mongoose, JWT, Swagger

Key Contributions:

- Developed role-specific dashboards for administrators, teachers, students, and parents.
- Built backend modules for course management, class enrollment, assignments, attendance, and learning materials.
- Implemented JWT authentication and role-based authorization middleware to control access to protected APIs.
- Designed MongoDB data models for users, courses, classes, schedules, payments, and academic activities.
- Structured RESTful APIs across multiple functional modules and integrated Swagger API documentation.

3. TN Ideal — Project Management System (2026)

GitHub: <https://github.com/quyenhoang0712/TNIDEAL>

Description: A full-stack project management application supporting project administration, status tracking, and role-based operations.

Role: Full-stack Developer

Tech Stack: React 19, Vite, Node.js, Express.js 5, MongoDB, Mongoose

Key Contributions:

- Developed React interfaces for administrative management, project dashboards, user operations, and activity records.
- Built backend APIs using Express.js and Mongoose for project data management.
- Implemented project creation, status management, and data validation using MongoDB schemas.
- Developed user authentication and role-based permissions for administrators and contractors.
- Configured MongoDB Atlas connectivity and Vercel deployment structure.

EDUCATION

Greenwich Vietnam

Major: Computing

2021 – Present

- Completed university coursework in software development and information technology.
- Gained practical experience in web application development through academic and personal projects.
- Expected Graduation: 2027

APTIS ESOL — CEFR B2 ENGLISH PROFICIENCY
